### **DETAILED ACTION**

Claims 1-13 are currently pending in the instant application and appear allowable over the prior art of record.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Stempel on 5 September 2006.

The application has been amended as follows:

1. Amend the status identifier of claim 9 from "(Original)" to --(Currently amended)--.
2. Delete claim 14.

### ***Priority***

Applicant has complied with the conditions for receiving the benefit of an earlier filing date under 35 USC 119 as applicant has provided a translation of the non-English language provisional application No. 60,251,055 and has provided a statement that the translation is accurate. Furthermore, a translation of the foreign priority papers has been made of record in accordance with 37 CFR 1.55.

Art Unit: 1626

Appropriately, the 35 USC 102 and 103 rejections of the claims are withdrawn as WO 01/16130 is thus removed as prior art as the effective date of the application, for the purpose of overcoming prior art is November 1, 2000.

***Terminal Disclaimer***

The terminal disclaimer filed on 25 July 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,794,395 has been reviewed and is accepted. The terminal disclaimer has been recorded. Therefore, the rejection of claims 1-13 on the ground of nonstatutory obviousness-type double patenting is withdrawn.

***Response to Amendment***

Applicants' amendment and remarks filed 25 July 2006 have overcome: the objection to claim 12 as containing informalities; the objection to claim 13 as being an improper multiple dependent claim; the objection to claims 1-13 as containing non-elected subject matter; and the 35 USC 112 2<sup>nd</sup> paragraph rejection of claims 1-4, 6-11 and 13.

The amendment to the claims in US Patent Application 10/646,495 has amended the claims to exclude subject matter instantly claimed by applicants. Therefore, the provisional rejection under 35 USC 101 as claiming the same invention is withdrawn.

The provisional rejection of claim 13 on the ground of nonstatutory obviousness-type double patenting over copending Application NO. 10/640,929 is withdrawn as the provisional nonstatutory obviousness-type double patenting rejection is the only rejection remaining in this earlier filed of the two pending applications. MPEP 804 states that if

Art Unit: 1626

the obviousness-type double patenting rejection is the only remaining rejection in the earlier filed of the two pending applications, the examiner should withdrawn that rejection and permit the earlier filed application to issue as a patent without a terminal disclaimer.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula (I). The novel and nonobvious aspect of this invention involves the substituents R2 and R7. The closest prior art of record fails to teach or suggest applicants' instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
